- 1- Introduction**
- 2- Plug component and installation instructions**
- 3- Launch VectorWorks**
- 4- Limitations and warnings**
- 5- More information about Artlantis**

---

## 1- Introduction

Artlantis plug 23.0.3 exports in .atl file format to Artlantis versions 6.5  
Minimum required: Vectorworks 2018 and Artlantis 6.5

---

## 2- Plug component and installation instructions

### Mac platform:

#### Component:

One folder: **Artlantis Export**

#### Installation:

Put **Artlantis Export** folder into the **Plug-Ins\*** folder of Vectorworks.

\* Important:

- 1- The **Artlantis Export** folder **must** be placed into the **Plug-Ins** folder.
- 2- Copy entirety the **Artlantis Export** folder. Do not copy elements separately.
- 3- Do not keep or rename an old **Artlantis Export** folder.

### Windows platform:

#### Component:

One file **CAtI6.5.dll** and one folder **Artlantis Export**.

#### Installation:

- 1- Put the file **CAtI6.5.dll** at the first level of the Vectorworks folder
- 2- Put **Artlantis Export** folder into the **Plug-Ins\*** folder of Vectorworks.

\* Important:

- 1- The **Artlantis Export** folder **must** be placed in the **Plug-Ins** folder.
- 2- Copy entirety **Artlantis Export** folder. Do not copy the elements separately.
- 3- Do not keep or rename an old **Artlantis Export** folder.

---

### 3- Launch Vectorworks

In Vectorworks display the Workspace Editor.  
Please refer to the Vectorworks documentation.

Click on the **Menus** thumbnail the left column displays the list of the **Commands**, and the right column the lists of the **Menus**.

- In the right column, click on **the arrow** in front of **File** then click on the arrow in front of **Export**.
- in the left column, click on the arrow in front of **Import/Export**.
- Select the **Artlantis Export...** item then drag and drop it to the right column just under the item **Export\***.  
Click **OK** to validate and close the dialog.

Then check that the new command is available menu **File > Export > Artlantis Export**.

---

### 4- Limitations and warnings

Please do not use older plug-ins with VectorWorks 2018 as they are not compatible. They might interfere with the new plug-in.

---
